

MALMÖ ALLMÄNNA SJUKHUS

PATOLOGISK-BAKTERIOLOGISKA
AVDELNINGEN

Professor
Joshua Lederberg,
The University of Wisconsin,
Wisconsin.

Dear Professor Lederberg,

Receive my very best thanks for the interesting reprints which you have been kind enough to send me. Since I am very much interested in bacterial genetics, and since this part of bacteriology is very little worked at in our country, I would be very glad if there in the future would appear an opportunity for me to visit your institute and maybe to do some experimental work there.

Hoping that you will kindly forgive me my audacity to express this suggestion, I remain

Yours sincerely

(Ove Möller)

M.D.
